Technical education English compulsory

Science is a key which unlocks for mankind a store of nature

In the present day of keen competition and hard struggle, general education is found to be sadly insufficient to earn for man his livelihood. The number of man with general education is continues and all the various departments where these man can be provided jobs and literally packed. The unemployment problem is mounting everyday so unrest and discontent are daily gaining ground.

Technical education mean teaching student other some practical art. It includes training in trade, commerce, weaving, agriculture, medicines and engineering. It helps to meet the needs of today's world of machines. Those who get such education become technical experts or technicians.

Technical education plays a very pivotal role in the modern age. It produces engineers, builders doctors and technicians. It promote material and economic development. People begin to have faith in the dignity of labour. We can earn a lot of foreign remittances by supplying technical labour to others countries. which are always

Is need in the developing as well as in the developed countries.

Man love to wander and that is the seed of science.

Technical education is lacking in Pakistan. Our schools and colleges produce individuals who are fit to be clerk. Our youth hankers after office jobs. They dislike working in factories and hate to learn practical skills. This is why unemployment is on the rise in ~~raw material~~ resources the country. poverty in Pakistan is due to the neglect of technical education. Our country is rich in raw material resources but we cannot enjoy the advantages only because we are not equipt with any techical knowledge.

Science is k nothing but trained and organized common sense.

We can make speedy agriculture progress by using machines. To become self-sufficient in food we shod have to set up industry that manufactures agricultural machines.
