Topic: Technical Education

"Science is a key which unlocks for mankind a store of nature."

During the present times, the general education is sadly found to be insufficient to acquire for the man his livelihood. The unemployment problem is growing at a large scale day by day. The technical education is serving as an aid to this problem.

Technical education refers to the education that teaches students how to apply their theoretical knowledge to practical problems. Technical education focuses on imparting practical skills and expertise that will enable students to meet the needs of the rapidly changing technological world. The importance of technical education cannot be overlooked.

because it has tightly grasped most of the things in today's modern world. It not only plays a vital role in country's economic growth but also provides students with various career opportunities.

The technology is the backbone of 21st century. It powers the digital world, enables people to connect and share ideas, allows people to make informed decisions and communicate much faster as compared to the former times.

"Education is the mother of leadership."

The technical education allows you to gain a lot of valuable experience. It teaches you a lot of lessons and gives a bigger ~~be~~ about certain things before you ~~physical~~ are physically able to do them in your practical life.

"I had to gain experience as I did not have a technical education."

In short, the technical education has served a way of earning for the unemployed and it needs to be promoted in the under-developed countries so that they can grow.
