found to be sadly insufficient to earn for man his livelihood. The number of men with general education is countless and all the various departments where these men can be provided jobs are literally packed. The unemployment problem is mounting every day. So, unrest and discontent are daily gaining ground.

**"Man loves to wander
and that is the seed
of science"**

Technical education means teaching students and others some practical and mechanical art - It helps to ~~sale~~ meet the needs of today's world of machines. Those who get this education become technical experts.

This type of education teaches how to transfer technology into real world for the benefits of humanity. It plays a very pivotal role in the modern age. It produces engineers, builders, doctors and technicians. It promotes material and economic development.

**Formal education will
make you living. Self
education will make
you a fortune.**

People begin to have faith in the dignity of labour. We can earn a lot of foreign remittances by supplying technical labour to other countries, which are always in need in the developing as well as in the developed countries.

With the expansion of population and social responsibilities, it was necessary to reshape the scope of education. We can make speedy agricultural progress by using machines. We need a great number of highly qualified technical experts and well trained technicians to handle, look after and repair machines.

The object of education is to prepare young to educate themselves throughout their lives

This is possible if we have schools, colleges, universities where technical and scientific education is imparted to the students.

There are many students who are not interested in studies. They are required to equip themselves with technical education.

Science is a key which unlocks for mankind a state of nature

In short, technical education makes a country rich, prosperous and resourceful, but it has certain limitations also. Too much of this education makes man into machine. We should never lose the sense of proportion. We should also have the element of liberal education in technical education.
