Question # 4

Essay.

It is a fact that woman is better half of man. Husband and wife are two wheels of the carriage of life. If one wheel is out of order, the carriage of life doesn't move on. Beyond doubt, women carry equal importance in society.

Today the importance of women in the society is beyond suspicion. In today's world, women with their ambitions, intelligence and strength have proved that the word "inferior" has nothing common with their gender. Women have proved that they can also be full members of the society, having their influence on all areas.

unconditionally. They have made the male chauvinistic societies realize their importance. It's safe to say that it didn't happen easily. Some people think that the role of a woman and a man are different in the society.

Moreover, women's role of the administration of the household affairs is very significant. The role of a woman as a mother is the greatest. History proves this fact that all great men owned their success to their mothers. The mothers of Marlane Muhammad Ali Jinnah and Shaukat Ali played a vital role in building their character and in their greatness. The examples of Chand Bibi, Razia Sultana and of Khola are before us.

Regarding women, Napoleon once said
"Give me good mothers and I shall give you a great nation"

~~So~~ Evidently, an uneducated woman can hardly teach and bring up her children in the right manner.

Brigham Young said
"You educate a man; you educate a man. You educate a woman; you educate a generation"
